

Dear Honorable Senators and Representatives:

We, the undersigned faith leaders and organizations, join together to urge you to cosponsor and pass the Every Child Deserves a Family Act so that every child experiences the love, care, and security that they deserve. As people of faith, we believe that all children and families touched by our child welfare system must be treated with dignity and respect, free from discrimination. Passage of the Every Child Deserves a Family Act will move us towards this critical goal by barring discrimination in federally funded foster care and adoption services based on religion, sex, sexual orientation, gender identity and marital status, and helping states, tribes, and agencies provide competent care to and improved outcomes for the children and families they serve.

As people of faith, we celebrate the important work of the many faith-based child welfare agencies that support and foster youth. Yet, some states have laws that allow taxpayer-funded child welfare agencies to misuse religious freedom to turn away prospective parents and in some cases, limit services to children due to their religion, marital status, sexual orientation, or gender identity. Such discriminatory practices break the cardinal rule of child welfare, to always act in the best interests of the child. We are committed to religious freedom and believe that it need not conflict with other essential rights and protections. Religious freedom protects everyone's right to practice the religion of their choice or no religion at all, as long as doing so does not inflict harm on others. To argue that religious freedom justifies the use of taxpayer dollars to discriminate against children and prospective parents is a distortion of such freedom and a misunderstanding of civil rights law.

Far too many foster children spend years in the system without finding a forever home. LGBTQ+ children, who are disproportionately represented in child welfare, experience higher rates of mistreatment, long stays in residential care rather than with families, and higher rates of homelessness, being trafficked, and criminal justice system involvement. Simply put, when child welfare agencies do not provide affirming care or turn away qualified foster and adoptive families, children suffer harm. The Every Child Deserves a Family Act promotes care that is affirming of a child's identity including race, color, national origin, religion, sex, sexual orientation, gender identity, and ability. It provides extensive resources to child welfare providers to improve the outcomes for the LGBTQ+ youth dramatically overrepresented in care. And, it opens up more loving homes to America's 440,000 foster youth. **Please co-sponsor and pass the Every Child Deserves a Family Act.**

Sincerely,

Undersigned faith leaders for the Every Child Deserves a Family Act
